	Member of Public	Marian Kempson	

² DGo to write to non designated heritage asset owners.

Comments	Response of the Steering Group	Proposed Action	By whom?	
33	Environment and sustainable design vision	No change – already incorporated in vision and objectives	DGI	
34	ES01 – Sustainability and energy efficiency	Proposed new theme and policies. No evidence collected to directly support this and so cannot realistically be brought into the Plan at this stage. Propose that this agenda is taken forward to the Town Council and future revisions of the NDP. However ,some issues are taken up in the Plan already eg in relation to flood risk and mitigation and biodiversity and habitats.	DGI	
35	ES02 – Carbon dioxide emissions		DGI	
36	ES03 – Community Energy Initiatives		DGI	
37	Policy/notes		DGI	
38	ES04 – Flood Risk		DGI	
39	Notes		DGI	
40	ES05 – Water conservation		DGI	
41	ES06 – Pollution		DGI	
42	Policy/Notes		DGI	
43	ES07 – Trees and Hedges		DGI	
45	Policy/Notes		DGI	
46	Transport objectives		Transportation generally not planning policy. Although very valid points raised many are taken up already in the projects and aspiration section of the Plan. Again, as with the previous set of comments, much can be taken up directly with the Town Council and other stakeholders, including NYCC.	DGI
