Town Council

Press Release

Knaresborough Town Council Precept 2025 - 26

Knaresborough Town Council have set their budget for the financial year 2025 – 26. The budget has been considered and planned by Town Councillors taking into account the current economic climate we all face, the desire to ensure minimal financial impact to residents, whilst also supporting the Council’s aspirations to respond to the opportunities that are being presented by North Yorkshire Council and the double devolution process.

The budget voted on by Town Councillors informs the precept. The precept is the main source of income for parish/town councils and is collected through residents’ council tax. The precept is a key factor in determining the level of services and amenities that the council can provide. With KTC’s aspirations to work with the current opportunities presented, the Council have voted for a precept increase for 2025 – 26 to support the budget they have set.

Knaresborough Town Council’s precept remains one of the lowest in the area, with the planned increase adding an additional £10.07 per year per Band D household, taking the town’s precept for 2025-26 to £36.99 per Band D household for the year.

The approved Budget will be available on the KTC website in the New Year.
